

How to Say **Hi!** to a Horse:

Safety Tips For Kids Who Love Horses

Don't goof off in the saddle. The horse could shy and you might fall off!

Don't come up to a horse from the back. If you startle the horse, it may kick you --- hard!

Be sure you have training on the safe way to handle your horse's hooves.

Walk beside a horse when you're leading it---not ahead or behind.

Never sit on the ground next to a horse's hooves. You could get stepped on!

**Taking care of and riding a horse can be lots of fun!
Remember to follow these safety rules when around horses.**
