

The following ideas were put together by Ron Jones, Farm Safety Consultant for the counties of Elgin, Essex, Kent, Lambton, and Middlesex.

Power take-off operation: "You always have two chances!"

- 1st — Your power take-off shaft is either guarded, or it's not.
- 2nd — If it's not, you still have two chances — either you have it running, or you don't.
- 3rd — If you have it running, you still have two chances — either you're near it, or you're not.
- 4th — If you're near it, you still have two chances — either it grabs hold of you, or it doesn't.
- 5th — If it grabs hold of you, you still have two chances — either it wraps you up, or it pulls your clothes off.
- 6th — If it wraps you up, you still have two chances — either you get killed, or you don't.
- 7th — If you get killed, you still have two chances...
