

35 bushels of wheat per acre equals 1,960 loaves of bread per acre.

About 17% of all U.S. agricultural products are exported each year.

One in every 10 rows of corn went into ethanol production in 2003.

An acre is about the size of a football field without the end zones.

About 90% percent of all U.S. farms are individually or family owned.

Farmers and ranchers receive only 19 cents out of every dollar spent on food.

The U.S. sells more food and fiber to world markets than we import.
